Download

You can easily download a single file or you can choose a batch download option. There are two ways to download our files: Way 1: From the File Drop Box 1. From the File Drop Box, simply select the type of file you want to download from the "Download" button on the top right hand corner of the page. 2. After you have selected the type of file you want to download, simply click the appropriate file name in the drop down menu. Way 2: From the URL 1. Copy the hyperlink from the URL (an example is given below) and paste the URL in your web browser. 2. Click the hyperlink which will lead you to the source of the file. 3. After you have clicked the hyperlink, you will see a message asking if you are sure you want to leave the website. Simply click "Yes" to continue. 4. The download will start automatically. After your download is complete, simply open the file in your favourite file management tool. If you have any problems or if you want to contact us for any other reason, send us an email to autocad@autodesk.com Thanks for using our website and for your patience! About the Autodesk website At Autodesk, we constantly add new features, data and applications to help our customers design, create and deliver successful things. We add new data and new features at least three times per year, and some are updated almost monthly. Our products are designed to make it easy for you to create in your favorite program, so we add features that work in each of the programs that we support. We also have an active user community, and we welcome user feedback in our user forums. Here, you can share tips and tricks, and other users can share their experiences. We add these updates to the Autodesk website, and this blog, and we also share information on the Autodesk blog. You can read about our latest feature updates, help articles, our product announcements, and the latest Autodesk products on our Autodesk website. Autodesk data makes your CAD applications more productive and your design even more successful. With more than 500,000 GB of CAD data, AutoCAD, Inventor, Civil 3D, and AutoCAD LT, Civil 3D, and AutoCAD Map 3D, 82157476af
